Notice of Determination of a Development Application
issued under the *Environmental Planning and Assessment Act 1979*
section 4.18(1)(a)

Application Number: DA58469/2020 Part 1
Applicant: G F Morris
Property: LOT: 65 DP: 250479 , 22 Orinda Avenue NORTH GOSFORD NSW 2250
Proposal: Freestanding Garage & Existing Garage Conversion

Date from which this consent operates

In accordance with section 4.20, 8.13 of the *Environmental Planning and Assessment Act 1979*, this consent becomes effective and operates from the date of this notice.

Consent to operate from

31 July 2020

Consent to lapse on

31 July 2025

Imposition of conditions

In accordance with section 4.17 of the *Environmental Planning and Assessment Act 1979*, this consent has been granted subject to conditions of this consent.

Review of Determination

In accordance with section 8.2, 8.3, 8.4, 8.5 of the *Environmental Planning and Assessment Act 1979*, the applicant may make an application seeking a review of this determination, providing it is made in time for Council to determine the review within six (6) months of this determination.

Right of Appeal

Section 8.7, 8.10 of the *Environmental Planning and Assessment Act 1979* confers on an applicant, who is dissatisfied with the determination of a consent authority, a right of appeal to the Land and Environment Court within six (6) months from the date of determination. To ascertain the date upon which the determination becomes effective refer to section 4.20, 8.13 of the Act.

For further information contact Central Coast Council Customer Service Unit on 1300 463 954.

On behalf of the consent authority

Gary Murphy

Chief Executive Officer

Per: 

Date: 31/07/2020

Conditions

1. PARAMETERS OF THIS CONSENT

1.1 Approved Plans and Supporting Documents

Implement the development substantially in accordance with the plans and supporting documents listed below as submitted by the applicant and to which is affixed a Council stamp "*Development Consent*" unless modified by any following condition.

Architectural Plans by: A1 Advanced Drafting

Drawing	Description	Sheets	Issue	Date
MM/2020/02/06	Site plan	1 of 7	D	21/04/2020
MM/2020/02/01	Floor plans	2 of 7	D	21/04/2020

Supporting Documentation:

Title	Prepared by	Date
Bushfire Assessment Report	David Peterson	16 April 2020

- 1.2 Carry out all building works in accordance with the National Construction Code Series, Building Code of Australia, Volume 1 and 2 as appropriate.
- 1.3 Comply with all commitments listed in the BASIX Certificate for the development as required under clause 97A of the Environmental Planning and Assessment Regulation 2000.

2. PRIOR TO ISSUE OF ANY CONSTRUCTION CERTIFICATE

- 2.1 All conditions under this section must be met prior to the issue of any Construction Certificate.
- 2.2 No activity is to be carried out on-site until the Construction Certificate has been issued, other than:
- Site investigation for the preparation of the construction, and / or
 - Implementation of environmental protection measures, such as erosion control and the like that are required by this consent
 - Demolition
- 2.3 Submit amendments to the approved plans to the Accredited Certifier pursuant to Clause 139 of the *Environmental Planning Regulation 2000* that must detail:
- The BCA 2019 Amdt 1 Volume 2 Performance Requirement P2.2.3 Rising damp is complied with for the proposed living area ground floor.

- 2.4 Submit to the Accredited Certifier a report prepared by a suitably qualified Registered Structural Engineer providing certification that the existing structure is capable of accepting all anticipated live and dead loads and will be structural capable of withstanding extensive excavation imposed by the proposed addition. The report is to include any recommendations on the structural upgrade of the existing structure.
- 2.5 Submit to the Accredited Certifier structural plans prepared by a suitably qualified Registered Structural Engineer for the retaining structures in excess of 0.6 metres in height.
- 2.6 Retain the land where any excavation is required below the adjoining land level and preserve and protect from damage any improvements or buildings upon that land including public roads and utilities.

If necessary, the improvements or buildings must be designed by a suitably qualified Registered Structural Engineer. Any design proposals prepared to comply with this condition are to include geotechnical investigations, any excavation that impacts on public infrastructure, and are to be submitted for the approval of the Accredited Certifier.

- 2.7 Submit to Council as the Roads Authority an application for a vehicle access crossing including payment of the application fee.
- 2.8 Submit an application to Council under section 305 of the *Water Management Act 2000* to obtain a section 307 Certificate of Compliance. The *Application for a 307 Certificate under section 305 Water Management Act 2000* form can be found on Council's website www.centralcoast.nsw.gov. Early application is recommended.

A section 307 Certificate must be obtained prior to the issue of any Construction Certificate.

3. PRIOR TO COMMENCEMENT OF ANY WORKS

- 3.1 All conditions under this section must be met prior to the commencement of any works.
- 3.2 Appoint a Principal Certifier for the building work:
 - a. The Principal Certifier (if not Council) is to notify Council of their appointment and notify the person having the benefit of the development consent of any critical stage inspections and other inspections that are to be carried out in respect of the building work no later than two (2) days before the building work commences.
 - b. Submit to Council a Notice of Commencement of Building Work form giving at least two (2) days' notice of the intention to commence building work. The forms can be found on Council's website: www.centralcoast.nsw.gov.au
- 3.3 Erect a sign in a prominent position on any work site on which building, subdivision or demolition work is being carried out. The sign must indicate:
 - a. The name, address and telephone number of the Principal Certifier for the work; and
 - b. The name of the principal contractor and a telephone number at which that person can be contacted outside of working hours; and
 - c. That unauthorised entry to the work site is prohibited
 - d. Remove the sign when the work has been completed.
- 3.4 Provide and maintain a garbage receptacle at the work site until the works are completed. The garbage receptacle must have a tight fitting lid and be suitable for food scraps and papers.

- 3.5** Install run-off and erosion controls to prevent soil erosion, water pollution or the discharge of loose sediment on the surrounding land by:
- a. erecting a silt fence and providing any other necessary sediment control measures that will prevent debris escaping into drainage systems, waterways or adjoining properties, and
 - b. diverting uncontaminated run-off around cleared or disturbed areas, and
 - c. preventing the tracking of sediment by vehicles onto roads, and
 - d. stockpiling top soil, excavated materials, construction and landscaping supplies and debris within the lot

- 3.6** Notify the intention to commence works by giving written notice to the owner of the adjoining property affected by the proposed excavation and/or structural protective works. The required notice must be accompanied by details of the proposed work at least seven (7) days prior to the commencement of proposed excavation and/or structural protection works.

- 3.7** Submit a dilapidation report to Council, the Accredited Certifier and relevant adjoining property owners. The report is to be prepared by a suitably qualified person detailing the structural characteristics of all buildings located on properties immediately adjoining the site boundaries and any council asset in the vicinity of the development. The report must document and provide photographs that clearly depict any existing damage to the improvements erected upon allotments immediately adjoining the development site and to the road, kerb, footpath, driveways, water supply and sewer infrastructure, street trees and street signs or any other Council asset in the vicinity of the development.

In the event that access to an adjoining property(s) for the purpose of undertaking the dilapidation report is denied, submit evidence in writing demonstrating that all steps were taken to obtain access to the adjoining property(s).

- 3.8** Erect a temporary hoarding or temporary construction site fence between the work site and adjoining lands before the works begin and must be kept in place until after the completion of the works, if the works:
- a. could cause a danger, obstruction or inconvenience to pedestrian or vehicular traffic, or
 - b. could cause damage to adjoining lands by falling objects, or
 - c. involve the enclosure of a public place or part of a public place

Note 1: A structure on public land or on or over a public road requires the prior approval of the relevant authority under the [Local Government Act 1993](#) or the [Roads Act 1993](#), respectively.

Note 2: The [Work Health and Safety Act 2011](#) and [Work Health and Safety Regulation 2011](#) contain provisions relating to scaffolds, hoardings and other temporary structures.

- 3.9** Provide or make available toilet facilities at the work site before works begin and maintain the facilities until the works are completed at a ratio of one toilet plus one additional toilet for every twenty (20) persons employed at the site.

Each toilet must:

- a. be a standard flushing toilet connected to a public sewer, or
- b. have an on-site effluent disposal system approved under the [Local Government Act 1993](#), or
- c. be a temporary chemical closet approved under the [Local Government Act 1993](#)

4. DURING WORKS

- 4.1** All conditions under this section must be met during works.

4.2 Carry out construction or demolition works during the construction phase of the development only between the hours as follows:

- 7.00am and 5.00pm Monday to Saturday

No construction or demolition works associated with the development are permitted to be carried out at any time on a Sunday or a public holiday.

4.3 During the construction phase of the development, if any Aboriginal object (including evidence of habitation or remains), is discovered during the course of the work:

- a. All excavation or disturbance of the area must stop immediately in that area, and
- b. The Office of Environment and Heritage must be advised of the discovery in accordance with section 89A of the National Parks and Wildlife Act 1974.

Note: If an Aboriginal object is discovered, an Aboriginal heritage impact permit may be required under the National Parks and Wildlife Act 1974.

4.4 Implement and maintain all erosion and sediment control measures at or above design capacity for the duration of the construction works and until such time as all ground disturbed by the works has been stabilised and rehabilitated so that it no longer acts as a source of sediment.

4.5 Keep a copy of the stamped approved plans on-site for the duration of site works and make the plans available upon request to either the Principal Certifier or an officer of Council.

4.6 Place all building materials, plant and equipment on the site of the development during the construction phase of the development so as to ensure that pedestrian and vehicular access within adjoining public roads, footpaths and reserve areas, is not restricted and to prevent damage to public infrastructure. Further, no construction work is permitted to be carried out within the road reserve unless the works are associated with a separate approval issued under the provisions of the *Roads Act 1993*.

4.7 Re-use, recycle or dispose of all building materials in accordance with the Waste Management Plan submitted with the subject application.

5. PRIOR TO ISSUE OF ANY OCCUPATION CERTIFICATE

5.1 All conditions under this section must be met prior to the issue of any Occupation Certificate.

5.2 Prior to the occupation or use of the building/structure, an application for an Occupation Certificate for the development must be submitted to and approved by the Principal Certifier. The Occupation Certificate application is to satisfy all of the requirements of the *Environmental Planning and Assessment Regulation 2000*.

5.3 Complete the building in accordance with the relevant provisions and requirements of the National Construction Code Series.

5.4 Drain all stormwater from impervious surface areas such as the terrace, including pathways and driveways, to the street kerb outlet.

5.5 Drain all roof water by a piped drainage line to the street kerb outlet.

5.6 Construct the vehicle access crossing in accordance with the vehicle access crossing Notice of Determination issued by Council.

5.7 Do not change the location of the Vehicle Access Crossing without prior written approval from Council.

6. ONGOING OPERATION

- 6.1 Do not adapt or use the non-habitable garage or outbuilding for residential, commercial or industrial purposes.
- 6.2 Do not let, adapt or use the dwelling for separate occupation in two or more parts.
- 6.3 Maintain all works associated with the approved Landscape Plans for a period of twelve (12) months from the date of the issue of any Occupation Certificate to ensure the survival and establishment of the landscaping.
- 6.4 Replace all damaged, dead or missing areas of lawn and plantings at the completion of the landscaping maintenance period, including adjoining road reserve areas that are in a state of decline, to a healthy and vigorous condition in accordance with the approved detailed Landscape Plans and Development Consent Conditions.

7. PENALTIES

- 7.1 Failure to comply with this development consent and any condition of this consent may be a criminal offence. Failure to comply with other environmental laws may also be a criminal offence.

Where there is any breach Council may without any further warning:

- Issue Penalty Infringement Notices (On-the-spot fines);
- Issue notices and orders;
- Prosecute any person breaching this consent, and/or
- Seek injunctions/orders before the courts to retain and remedy any breach.

Warnings as to Potential Maximum Penalties

Maximum Penalties under NSW Environmental Laws include fines up to \$1.1 Million and / or custodial sentences for serious offences.

ADVISORY NOTES

- Discharge of sediment from a site may be determined to be a pollution event under provisions of the *Protection of the Environment Operations Act 1997*. Enforcement action may commence where sediment movement produces a pollution event.
- The following public authorities may have separate requirements in the following aspects:
 - a. Australia Post for the positioning and dimensions of mail boxes in new commercial and residential developments
 - b. Jemena Asset Management for any change or alteration to the gas line infrastructure
 - c. Ausgrid for any change or alteration to electricity infrastructure or encroachment within transmission line easements
 - d. Telstra, Optus or other telecommunication carriers for access to their telecommunications infrastructure
 - e. Central Coast Council in respect to the location of water, sewerage and drainage services
- Carry out all work under this Consent in accordance with SafeWork NSW requirements including the *Workplace Health and Safety Act 2011 No 10* and subordinate regulations, codes of practice and guidelines that control and regulate the development industry.
- Dial Before You Dig
Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial Before You Dig at www.1100.com.au or telephone on 1100 before excavating or erecting structures. (This is the law in NSW). If alterations are required to the

configuration, size, form or design of the development upon contacting the Dial Before You Dig service, an amendment to the development consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant or assets on the relevant property via contacting the Dial Before You Dig service in advance of any construction or planning activities.

- Telecommunications Act 1997 (Commonwealth)

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's network and assets. Any person interfering with a facility or installation owned by Telstra is committing an offence under the Criminal Code Act 1995 (Cth) and is liable for prosecution. Furthermore, damage to Telstra's infrastructure may result in interruption to the provision of essential services and significant costs. If you are aware of any works or proposed works which may affect or impact on Telstra's assets in any way, you are required to contact: Telstra's Network Integrity Team on phone number 1800 810 443.

- Install and maintain backflow prevention device(s) in accordance with Council's WS4.0 Backflow Prevention Containment Policy. This policy can be found on Council's website: www.centralcoast.nsw.gov.au

This condition only applies if installation / alteration of plumbing and / or drainage works proposed (excludes stormwater drainage).
