Development Application: 011.2020.00057957.001

Applicant: Perception Planning Pty Ltd

Description: INTEGRATED Childcare Centre & Associated Car Park

Comments: As a local resident I believe this proposed development will have a negative impact on the traffic conditions and I object to this Development Application, it seems to have issues with: bush fire, the proposed septic system, how the site will manage its storm water, impact on traffic safety and increased congestion conditions, impact on the site ecology and the proposed building is clearly out of character for its location among the rural bush setting. Surely there are many other appropriate locations for a childcare centre that does not have the same issues as this site or that will have an impact on an already congested section of the road during peak hours of travel.
